Executive Summary

Debt issuance for bond projects are as follows:

School Bonds	
\$130,485,000 - April 2021 (FY 20-21)	All bond projects funded and because of April 2021 premium market, \$19,515,000 bond par remains unissued.
Community College Bonds	
\$20,665,000 - April 2021 (FY 20-21)	Center for Excellence with ground parking (350+ spaces) and Student Services Center funded. \$18,935,000 bond par remains unissued and available for remaining projects.
\$18,935,000 – Planned Sep 2022 (FY22-23)	Bond issuance needed for additional funds approved for Center for Excellence and Student Services Center as well as project funds for the Training Center, and Building Renovation Project.

1. Funding allocated for the FY22-23 Capital Plan remains at the same levels as prior years.
2. **Alamance County projects** completed in FY21-22 include: elevator upgrades, roof replacement projects, the Petree Human Services building and HVAC projects in the Administrative building. An EMS Substation project was deferred for a year.
3. **State grant of \$15,000,000** is available for a new Emergency Services Building that will co-locate communication services from Alamance County and the City of Burlington as well as offer dedicated space for an Emergency Operations Center, and functions of Emergency Management. Another state grant of \$500,000 is available to aid a Mental Health Diversion Center building project.
4. **Federal American Rescue Plan (ARP)** funds of \$1,712,350 have been allocated for the Human Services Building HVAC project. The HVAC project at the Human Services Center is intended to replace obsolete HVAC systems throughout the facility over an extended timeline to accommodate the work schedules of occupying programs. Because these HVAC system improvements will provide a safer ventilation system within a public building, this \$1,712,350.00 HVAC project is an ARP eligible project. Based on interim guidance provided by the U.S. Treasury, ARP funds may be used for COVID-19 mitigation and prevention efforts which include "ventilation improvements in congregate settings, health care settings, or other key locations." The Board of Commissioners has chosen to spend ARP funds in lieu of capital reserve funds for this project.

5. For the FY22-23 Capital Plan, Alamance County has also included information about pending projects related to **Communications Technology** and the Solid Waste **Landfill**.
6. Project budgets for **Alamance Community College** have been updated due to rising construction costs. In August 2021, Alamance Community College was authorized additional capital funding of \$2,403,930.00 to complete the first two bond projects: the **Center for Excellence Project** \$1,900,430.00 and **Student Services Center Project** \$503,500.00. This additional funding will allow the projects to be completed according to their original design and can be funded with unissued bond proceeds within the existing County Capital Plan. Additional funding of \$2,000,000 from capital reserves was authorized for the **Public Safety Training Center** as well as an allocation of \$500,000 from the American Rescue Plan to extend water and sewer lines to the Training Center site.
7. Alamance Community College has applied federal HEERF funds and State and local grant awards to some previously unfunded projects to help reduce their unfunded project list.
8. In February 2022, Alamance-Burlington School System was allocated additional capital reserve funding of \$ 8,482,222.50 toward unfunded projects that could be planned for the summer 2022 including: roof projects, traffic projects, masonry projects, and safety improvements. Once completed, the traffic projects may be eligible for reimbursement from the North Carolina Department of Transportation.

June	<ul style="list-style-type: none">• Oversight Committee sets FY 23-24 meeting schedule.

CAPITAL PLAN INTRODUCTION

Alamance County's FY 2022-2023 Capital Plan represents a multi-year planning process which included approval of a November 2018 bond referendum for school capital projects (up to \$150 million) and community college capital projects (up to \$39.6 million). The Capital Plan is a planning and implementation tool for the acquisition, development, construction, maintenance, and renovation of public facilities, infrastructure, and certain capital equipment.

In order to provide needed and desired services to the public, Alamance County is responsible for providing capital facilities and equipment for the County government, Criminal Justice System, Alamance-Burlington School System and Alamance Community College. The Capital Plan is the result of an ongoing process to assess the need for major capital expenditures, to determine the feasibility of funding these projects, and to establish a plan for financing and implementing these projects.

In developing its plan, the County adheres to a set of financial and debt management policies established by the Alamance County Board of Commissioners and outlined in the Financial Management Policies section of this manual. These policies help preserve the County's credit rating and establish the framework for the county's overall fiscal planning and management.

BENEFITS of the Capital Program

A long-term capital program has many benefits derived from its organized approach to planning projects. The program provides a systematic evaluation of all potential projects at the same time and serves to stabilize debt service payments and reduce borrowing costs through consolidated issuance. Benefits include:

- Eliminates duplication of project requests and enables joint planning efforts;
- Establishes a system of annual examination and prioritization of county needs;
- Focuses attention on community goals and objectives;
- Allows for the identification of appropriate project financing and construction schedules;
- Provides a basis for formulation of bond issues, borrowing programs, or other revenue producing measures;
- Encourages efficient government administration;
- Bridges the gap between day-to-day operations of county government and the county's long-range development goals.

The Capital Improvement Plan (CIP):

The CIP includes all non-bond funded projects for a five-year period and forecasts spending for all anticipated capital projects. The plan is based on the “physical needs” of the County as prioritized by the review committees in accordance with the Board’s guidance.

The first year of the CIP is called the **Capital Budget** which is formally adopted through the annual operating budget (and therefore authorized for expenditure) by the Alamance County Board of Commissioners. The projects included in subsequent years (i.e. years two through five) are for planning purposes only and do not receive spending authority until they become part of the Capital Budget. **Pay-go** funding from accumulated capital reserves is primarily used to finance CIP projects.

Capital Projects:

A **capital project** is a planned expense for a facility or physical item requiring a minimum expenditure of \$20,000 by the County, having a useful life span of 10 years or more (except for technology projects), and meeting one or more of the following definitions:

1. Involves the acquisition or construction of any physical facility for the community;
2. Involves the acquisition of land or an interest in land for the community;
3. Involves the acquisition or construction of public utilities;
4. Involves the ongoing acquisition of major equipment or physical systems, (i.e., computer technology, radio systems, major specialized vehicles, etc.);
5. Involves modification to facilities, including additions to existing facilities which increase the square footage, useful life, or value of the facility; and/or
6. Capital maintenance or replacement projects on existing facilities, as defined below:

Capital Project Costs include all expenses directly related to the acquisition or construction of any physical facility, land parcel, or major system, such as consultant or professional services for planning, design, survey, engineering, and construction; permit fees; site preparation; installation of utilities and infrastructure; County project management fees; and acquisition of capital equipment and durable commodities required in order for the constructed or acquired facility to be opened and become initially operational.

Mandated Project – Projects submitted in response to a directive/law from a government body (i.e. Local Govt., State Govt., or Federal Govt. mandate).

Information Technology Purchases are durable products but typically have a useful life of only 3 to 5 years. These purchases are currently excluded from the Capital Plan and expected to be purchased using annual operating budgets, whether funded by lease, other debt, or non-borrowed sources of funding, such as state or local revenues.

Current Replacement Value (CRV) is the estimated cost to replace a facility. The CRV is calculated by multiplying the current construction cost per square foot (SF) of the building times the gross square footage of the building. The square foot cost for each building is based on the actual construction costs paid in North Carolina during recent projects.

Facility Condition Index (FCI) is a means to compare the state of a facility to others. It is the cost of deficiencies divided by the CRV expressed as a percentage. When percentages exceed 70%, consideration will be given to replacement rather than repair.

Funding Resources for financing the capital projects may include, but are not limited to:

- **Annual Pay-Go:** Financed from General Fund revenue and General Fund balance
- **Bank Loans:** Financed through bank loan and paid back over time with General Fund revenue or dedicated Capital reserves
- **Designated Funds/Capital Reserve:** Funds reserved from county operating revenues for capital
- **Grants Funds** from private donors, foundations, or federal and state grants
- Proceeds from the **sale of bonds**
- Contributions from outside sources such as **private developers**
- Tourism: funds received from the county's **occupancy tax**. These funds support only projects promoting tourism or travel in Alamance County.
- **Leases** for equipment, vehicles and technology (if included in the capital plan)
- **Performance Energy Contracts**

Capital Needs Assessment:

In addition to the capital projects identified in the five-year period of the CIP, other capital needs may be considered as part of the Capital Needs Assessment. The assessment projects may be listed as “Unassigned” in the Five-Year CIP due to limited funding or prioritization of other projects. Projects included in the assessment period are not tied to revenues, but are viewed as potential projects in a planning stage.

Process for Preparing the Capital Plan

The Capital Plan will be reviewed on an annual basis. The Budget Department prepares and distributes the package utilized by departments and agencies to submit project requests. The planning phase begins with a detailed review of five-year needs and departmental project submissions for new projects.

Projected costs are determined using historical or current costs for similar projects based on engineering or architectural estimates when available. No assumption is made for annual escalation of project costs. Project Cost Estimates should be comprehensive and are included in the following phases:

- Land and Site Preparation;
- Construction;
- Furnishings, Fixture, and Equipment (FF&E);
- Hardware/Software;
- Project Management and Other.

Financial Management:

The Capital Plan is developed to be consistent with approved County financial policies. Financial information is reported monthly to the TRC, OSC, and is available on the county capital projects website. See Appendix E for the Alamance County approved Fiscal Guidelines.

Projections of Revenues and Debt Service:

To implement a more realistic plan of projects in the next five-year period, County staff provides the review committees with a forecast of revenues anticipated to be available and expected debt service costs needed to support CIP projects. See Appendix C for information regarding the Alamance County Capital Finance Plan.

Review Process

Technical Review Committee (TRC)

The TRC will review, evaluate, and document the need for each project and make recommendations to rank projects based on established criteria. Available revenues, the Board of Commissioner's Guiding Principles, and financial policies help guide project decisions. ***The Technical Review Committee reports its recommendations to the Oversight Committee.***

TRC Member Responsibilities:

- Review all project requests for clarity, accuracy, and appropriate timing;
- Meet with project submitters to clarify requests and propose revisions, if needed;
- Rank requested projects based on established evaluation criteria;
- Review available revenues and debt service requirements for project requests based on approved County financial policies;
- Prioritize projects based on their ranking and available revenues;
- Forward the committee recommendations to the Oversight Committee for its review.

Proposed TRC Members:

- County Budget and Management Director (Member/Facilitator)
- Senior Project Management Staff (ABSS and ACC)
- Planning/Budget/Finance staff (County, ABSS, and ACC)
- Budget staff/analyst, Finance and Budget

Project Ranking Criteria:

Project evaluation criteria will be established for use by the committees to review and evaluate all capital projects and their cost estimates.

Mandated projects and projects approved for bond debt are considered to be the highest priorities.

The County encourages projects, which include contributions from outside resources arising from private donations, grants, public/private partnerships, and state and federal programs and incentives.

All proposed capital projects will be subject to ranking in the following areas of emphasis:

- Health and Safety;
- Education;
- Regulatory Compliance;
- Quality of Life;
- Infrastructure;
- Sustainability/Energy Efficiency;
- Economic/Community Development;
- Special Considerations;
- Impact on Operational Budget;
- Timing/Location;

Please see Appendix B for the evaluation criteria.

Oversight Committee (OSC)

The OSC reviews the Technical Review Committee’s rankings and Capital Program recommendations and adjusts the projects accordingly. The Oversight Committee provides a recommended Capital Plan to the County annually.

The Committee will ensure that the proposed Capital projects are aligned with the County’s policies, priorities, principles, and long-term vision. The Committee will also ensure that the recommended five-year CIP aligns with approved financial policies, and that the County’s financial stability is maintained through the prudent use of its revenues.

Oversight Committee Member Responsibilities:

- Review the recommended Capital Improvement Program presented by the TRC;
- Ensure that the proposed project ranking is properly and consistently applied;
- Propose modification/improvements to the project ranking system;
- Ensure that all capital projects carry out the County’s long-range goals and objectives;
- Ensure that the recommended projects address County needs through the proper timing, prioritization, and balance of local government and school projects.

Proposed Oversight Members:

- 2 Members of the Alamance County Board of Commissioners
- 2 Members of the Alamance-Burlington School System Board of Education
- 2 Member of the Alamance Community College Board of Trustees

Alamance-Burlington School System

PAYGO CIP projects are budgeted and expended out of the General Fund, as approved on an annual basis by the Governing Body in the budget adoption process. These projects do not require a capital project ordinance, and are therefore expected to be paid out within the fiscal year in which the original allocation is made. Alamance County distributes 1/12th of the approved yearly allocation each month to Alamance-Burlington School System.

Alamance-Burlington School System
Capital Projects Not Yet Funded
Last Updated March 2022

Unfunded Projects Summary

Western Middle School	Roof	\$	1,444,000.00

Expected Operating Costs \$	1,750,000	Expected Construction Complete	April 2023

Project Scope and Description

Completed project will include:

- Land acquisition
- Utilities to site
- School building construction of approximately 240,000 SF
- Athletic fields and associated buildings for concessions, ticketing, restrooms
- Parking and drives
- Stormwater measures (retention ponds, etc.)
- Survey
- Soil borings

Project Costs Include:

- Professional Fees
- Survey
- Soil borings
- Construction testing & inspections
- Furniture, Furnishings & Equipment Allowance
- Technology Allowance

Operating Impact Begin Date
July FY23-24

Project Scope and Description N.A.

- Add 27,525 SF building space to provide:
- Demolish 2 buildings and construct 2-story classroom building to replace 16 classrooms and restrooms plus 6 classrooms, 5 science labs, and 3 resource rooms
 - Cafeteria/Dining Expansion
 - Renovations/upgrades to existing buildings

Renovate/Upgrade Existing Buildings to include:

- School safety improvements (cameras, blinds, carded entry locks)
- Replace damaged floor tiles; patch cracked terrazzo flooring
- Exterior window replacement & caulk where needed
- Renovate multi-restroom facilities with new plumbing fixtures, tile, partitions and paint
- Roof replacements or repairs where needed
- Remove lockers to widen hallways for improved traffic flow
- Replace non-ADA compliant cabinet, sinks, door hardware
- Replace aging mechanical systems
- Add humidity controls to HVAC
- Replace campus walkway canopy system

Project Scope and Description

Completed project may include:

- Addition of 12 classrooms
- Addition of new kitchen
- Renovate existing kitchen space for dining expansion
- Renovations/upgrades to existing buildings including ADA additions

Renovate/Upgrade Existing Buildings to include:

- School safety improvements (cameras, blinds, carded entry locks)
- Replace vinyl composite tile flooring and carpet; replace with tile
- Renovate multi-restroom facilities with new plumbing fixtures, tile, partitions and paint
- Remediate water infiltration where buildings intersect
- Add humidity controls to HVAC upgrades or installations
- Replace windows in cafeteria and media center
- Replace non-ADA compliant cabinetry, sinks, door hardware
- Provide ADA accessible main entrance
- Repair damaged/cracked sidewalks
- Roof replacement/repair where needed
- Replace gymnasium flooring
- Fix erosion issues on site

Total \$	388,200	280,000	280,000	280,000	280,000	1,562,200

PAYGO CIP projects are budgeted and expended out of the General Fund, as approved on an annual basis by the Governing Body in the budget adoption process. These projects do not require a capital project ordinance, and are therefore expected to be paid out within the fiscal year in which the original allocation is made. Alamance County distributes 1/12th of the approved yearly allocation each month to Alamance Community College.

Expected Construction Complete December 2022

Project Scope and Description

Center of Excellence (30,000 SF):

Net 12,000 SF = 12 Labs/Classrooms at 1,000 SF Net 8,000 SF = 1 Multipurpose at 2,000 SF, 4 Incubator/Breakout Spaces at 1,500 SF

- Biotechnology
- Science, Technology, Engineering, and Math
- Histotechnology
- Cytotechnology
- Food Science

Possible Ideas to incorporate into the new Center of Excellence Building:

- State-of-the-Art Teaching Classrooms / Instructional Labs
- Co-working space to foster innovation
- Incorporation of offices, common /conference areas, and event spaces
- Greenscapes / Greenhouse areas
- Coffee Shop / Snack Area

Parking Area (350+ Spaces):

- Public Safety Substation
- Projected Enrollment Growth
- Offset Displaced Parking of New Construction

Expected Construction Complete	December 2023

Project Scope and Description

Public Safety Center:

- 15,000 SF with 24 lanes
- Six Classrooms adjoining Indoor Firing Range and Fire Tower
- Dedicated Shooting Simulator Space
- Basic Law Enforcement Training
- Driving Pad
- Emergency Medical Services (Future)

In addition to the debt-funded project approved for \$12,400,000 to building the Public Safety Training Center, there is an additional Water and Sewer extension project for \$500,000 funded with federal American Rescue Plan (ARP) funding. The lines are expected to benefit residential areas adjacent to the site as well as the Training Center.

Surplus (Unfunded)	\$ (15,907)	\$ (113,965)	\$ 56,495	\$ -	\$ 50,750	\$ (11,127)

The proposed capital plan restores and sustains \$250,000 per year for general County building Pay-Go projects and adds an additional sustained \$50,000 per year, beginning in FY21-22, for historical buildings maintained by the Alamance County Parks Department for a grand total of \$300,000 in requested County building Pay-Go funding each year.

In FY21-22, HVAC control projects had actual costs lower than budgeted leaving excess budget available for future projects including the FJC Building generator and an Environmental Health roof project.

Project Scope and Description

This project is intended to provide a new Mental Health Diversion Center to care for individuals experiencing mental health crises who may interact with law enforcement or emergency medical care. This facility will divert these individuals from the County Jail and provide the appropriate mental health and substance abuse interventions and resources for stabilization. This facility will operate 24 hours per day, 7 days per week. The facility will be operated and staffed by the partnering agency with which Alamance County partners for these services at the time. **Potential** revenue sources for this project include: \$1.2 million donation from Cardinal Innovations; \$261,100 in unspent Maintenance of Effort Funds from previous years; \$125,000 in Petree donation funds; and any amount of American Rescue Plan Funds as allocated by the Alamance County Board of Commissioners.

Project Scope and Description

Renovate Targeted Areas of a 40,891 SF Building to Provide:

- Additional courtrooms from former administrative and office space
- Improvements to jury and bailiff rooms
- Connection to court services and administration offices

Court Safety Improvements:

- Safe access from detention center to courtrooms
- Bathroom accessibility improvements
- Public parking adjacent to public court entry

Expected Borrowing Date	August 2023	Governing Body Project Authorization	TBD
Expected Construction Start	October 2023	Expected Construction Complete	March 2025
Expected Operating Costs	TBD	Operating Impact Begin Date	FY25-26

Project Scope and Description

New Satellite EMS location based on EMS service needs. Space need is 10,000 square feet and may include an EMS garage space if not accommodated in a separate location. A new EMS ambulance with a new crew of 4 positions would be budgeted for FY25-26.

Land acquisition will be paid upfront in cash by the County, while construction and upfit will be financed with installment loan proceeds.

Expected Construction Start	January 2024	Expected Construction Complete	September 2025
Expected Operating Costs	TBD	Operating Impact Begin Date	FY25-26

Project Scope and Description

In its most recently adopted budget, the State of North Carolina allocated \$15,000,000 directly to Alamance County for the construction of a consolidated emergency management facility. This facility will house Alamance County's emergency communications function, along with those of other jurisdictions within its bounds. In addition, it will house several County departments, including: Emergency Management, SARA Management, Fire Marshal, and potentially shared space with Alamance County EMS and Alamance County Sheriff's Office.

Project Start	November 2019	Project Completion	May 2021
Expected Operating Costs \$	44,317	Operating Impact Begin Date	May 2021

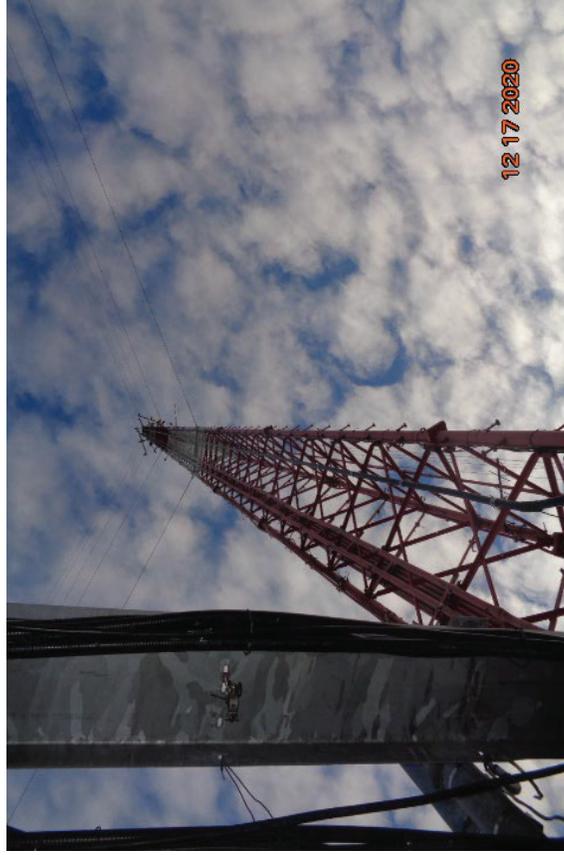

Project Scope and Description

Increase from 1 to 3 Functioning Transmission Sites:

- Old Alamance County landfill
- Mebane Fire Department tower
- SBA tower

Each site and CCOM headquarters will be equipped with microwave radios, dishes, antennas, and related equipment. A new generator will be purchased at the SBA site. Generators have already been installed at the other two sites.

These upgrades will improve and maintain reliable communication and coordination for local public safety agencies and emergency management personnel. These upgrades are also expected to save over \$200,000 in costs at decommissioned receiver sites.

Central Communications Radio and Console System Upgrades

Project Budget \$	1,089,693	Public Authorization	Not Required
Expected Borrowing Date	N.A.	Governing Body Project Authorization	11/15/2021 Governing Board Approval
Project Start	July 2022	Expected Project Completion	September 2022
Expected Operating Costs	TBD	Operating Impact Begin Date	September 2022

Project Scope and Description

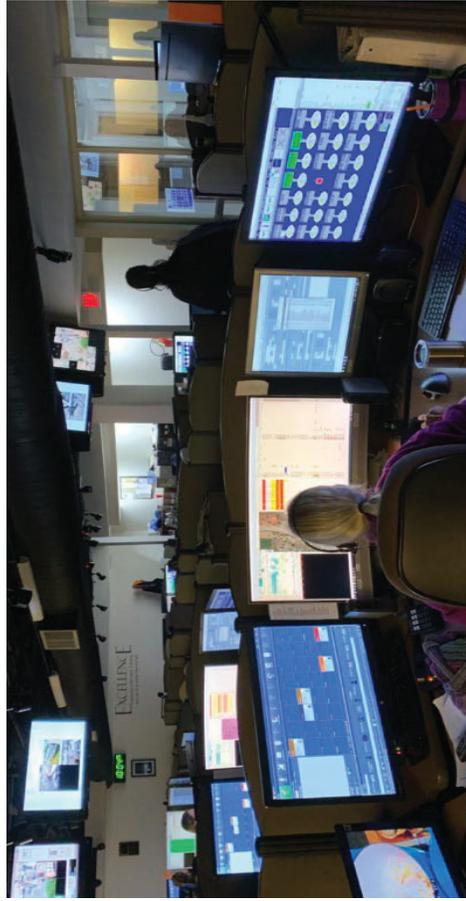

Console units will be leased for a term of 59 months, at a cost of 5 equal installments in the amount of \$217,938.60 for a total least cost of \$1,089,693.

As a result of this radio system upgrade, emergency calls will be prioritized to get through no matter how busy the network is. Audio quality will be increased despite increased traffic loads.

Increasing from Motorola Command and Control 5500 upgrade to Motorola Command and Control 7500.

Includes software and hardware (consoles, computer screens, etc.).

Some elements of this project may be eligible for E-911 funding.

VIPER Towers Project

Project Budget \$	3,000,000	Public Authorization	Not Required
Expected Borrowing Date	Spring 2023	Governing Body Project Authorization	Pending Governing Board Financing & Purchasing Authorization
Project Start	TBD	Expected Construction Complete	Spring 2025
Expected Operating Costs	TBD	Operating Impact Begin Date	N.A.

Project Scope and Description

Addition of VIPER radio towers to improve radio signal for emergency communications throughout County in current problem areas of Pleasant Grove, Haw River Valley, and Cane Creek Mountains. Ideally, these new towers would be located on property currently owned by the County or another public entity to reduce project costs. Two-year project timeline considers time needed to find appropriate sites, and produce requests-for-proposals for tower construction.

Project Scope and Description Consultant costs in FY22-23 operations. CAD (Computer Aided Dispatch) consists of software used to initiate public safety calls for service, dispatch, and maintaining the status of responding resources in the field. It is used by emergency communications dispatchers, call-takers, and 911 operators in centralized, public-safety call centers. As technology continues to be upgraded, a new CAD system will provide our communication center, police, fire and EMS higher quality incident management and call-taking capabilities to deliver better service during emergencies and major events.

The CAD project is a joint effort involving Alamance County, City of Burlington, and Elon. Funding for a CAD project consultant (\$188,900) to determine the scope of the project was included in the FY22-23 budget. Additional information coming soon.

Construction Start	FY21-22	Expected Construction Complete	FY22-23
Expected Operating Costs	N.A.	Operating Impact Begin Date	N.A.

Project Scope and Description

This project involves the formal closure of the existing cell of the landfill currently receiving solid waste. Formal closure of landfills in North Carolina are mandated and regulated by the State of North Carolina's Department of Environmental Quality. Landfills are required by law to set aside funds each year reflective of the landfill's current volume to ensure the financial capability of formal closure activities. For this reason, the project is fully funded with resources set aside in previous years as the landfill's solid waste volume increased. Ideally, this project may be combined with the new landfill cell construction project under one bid and contract to take advantage of potential cost savings.

Once closed, the landfill will be monitored for environmental issues and/or contamination. If there are such issues, the remediation will be funded in part or whole by the same source as above, being money set aside in previous years as part of the State's mandated financial assurance savings.

Project Scope and Description

The purpose of this project is to repair a liner found to be damaged in one of the existing cells at the Alamance County Landfill. Repairing this liner will prevent the leaching of contamination from solid waste into the ground underneath. The total cost of this project includes all aspects of the repair, including scope determination, documentation preparation and submission to NCDEQ, soil testing, repair of the liner itself, and quality control testing.

Expected Borrowing Date	N.A.	Governing Body Project Authorization	N.A.
Construction Start	FY22-23	Expected Construction Complete	FY22-23
Expected Operating Costs	N.A.	Operating Impact Begin Date	N.A.

Project Scope and Description

The purpose of this project is to construct a second entryway into the Alamance County Landfill. Currently, there is only one entryway shared by both commercial and residential customers. This creates traffic congestion and safety concerns, especially for residential customers. In addition, with only one scale on-site, commercial traffic must maneuver around the convenience center to circle back to the scales when exiting. A new entrance will streamline traffic from both customer groups, ensuring more efficient entrance, weighing, and exiting the landfill.

Appendix B: Evaluation Criteria

Project Ranking Criteria Sample

PROJECT RANKING CRITERIA

Project Ranking By Area of Emphasis

All submitted or proposed Capital Improvement Projects will be subject to ranking in accordance with the criteria and scoring system below. Areas of emphasis will include the following 10 categories:

- 1) Health and Safety (15%)
- 2) Education (15%)
- 3) Regulatory Compliance (10%)
- 4) Quality of Life (10%)
- 5) Infrastructure (10%)
- 6) Sustainability/Energy Efficiency (10%)
- 7) Economic/Community Development (10%)
- 8) Special Considerations (10%)
- 9) Impact on Operational Budget (5%)
- 10) Timing/Location (5%)

Each project will be evaluated against each area of emphasis and scored on a scale of 1 through 4 based on the degree to which the project addresses the attributes of the particular area of emphasis.

Descriptions of each area of emphasis and the attributes or considerations that will determine the score are as follows:

1) Health and Safety (15%)

Health and safety typically involves such things as fire service, police service, emergency response and communications, safe roads, public health, and flood control, as examples. A health clinic, fire station or police station would directly impact the health and safety of citizens, thus scoring high in this category. Similarly, safety improvements in a school or public building might score points in this category while adding concession stands to an existing facility would probably not. Considerations would include the following:

- a) Is the project in conformance with and supportive of the goals, objectives and strategies of the Comprehensive Plan?
- b) Is the project supported by County sponsored service plans, master plans, strategic plans or special studies?
- c) Does the project relate to the results of the citizen survey, Board of Supervisor policy, or appointed committee or board?
- d) Does the project directly reduce risks to people or property (i.e. flood control)?
- e) Does the project directly promote improved health or safety?
- f) Does the project mitigate an immediate risk?

2) Education (15%)

This category relates to education and learning. New facilities, renovations or technologies that create or enhance educational opportunities are included in this category. Items addressed would also include major renovations or facility maintenance improvements to preserve assets or upgrade school or other educational facilities. Finally, this category would also include technological upgrades or improvements and facility improvements designed to improve or enhance the learning environment. A project to add a classroom wing to replace temporary trailer facilities at a public school would score high in this category. Considerations in establishing the score include:

- a) Is the project in conformance with and supportive of the goals, objectives and strategies of the Comprehensive Plan?
- b) Is the project supported by School Board sponsored service plans, strategic plans or special studies?
- c) Is the project supported by special surveys or community input?
- d) Does the project address an immediate and necessary space need?
- e) Does the project accommodate an essential program, or is it a program enhancement?
- f) Is the project mandated?
- g) Is the project intended to bring parity and consistency among similar facilities?

3) Regulatory Compliance (10%)

This criterion includes regulatory mandates such as courts, prisons, schools, storm water/creek flooding problems, ADA, etc. The score will be based on considerations such as:

- a) Does the project address a legislative, regulatory or court-ordered mandate (0 - 5 years)?
- b) Will the future project impact foreseeable regulatory issues (5 - 10 years)?
- c) Does the project promote long-term regulatory compliance (>10 yrs)?
- d) Will there be serious negative impact on the County if compliance is not achieved?
- e) Are there other ways to mitigate the regulatory concern?

4) Quality of Life (10%)

Quality of Life is a characteristic that makes the County a desirable place to live and work. For example, public parks, libraries, schools, multi-use trails, open space, and preservation of community character enhance the quality of life for citizens. A County maintenance building is an example of a project that may not directly affect the citizen's quality of life. The score will be based on the following attributes or considerations:

- a) Is the project in conformance with and supportive of the goals, objectives and strategies of the Comprehensive Plan?
- b) Is the project supported by County sponsored service plans, master plans, strategic plans or special studies?
- c) Does the project relate to the results of the citizen survey, Board of Supervisor policy, or appointed committee or board?
- d) Does the project increase or enhance educational opportunities for County citizens generally?
- e) Does the project increase or enhance recreational opportunities and/or green space?
- f) Does the project target the quality of life of all citizens or does it target one demographic? Is one population affected positively and another negatively?
- g) Does the project preserve or improve the historical or natural heritage of the County?
- h) Does the project affect traffic positively or negatively?
- i) Does the project improve, mitigate and or prevent degradation of environmental quality (e.g. water quality, improve or reduce pollution including noise and/or light pollution)?

5) Infrastructure (10%)

This element relates to basic or core infrastructure needs of the County. Typical projects in this category would include utility/service infrastructure such as storm water systems, underground utilities, sidewalks, streets/transportation facilities, broadband or wireless communication systems, streetscapes, and County service facilities. Buildings would also be included to the extent they address a basic functional need of the County. Constructing a facility in excess of facility or service standards would score low in this category. The score will be based on the following attributes or considerations:

- a) Is the project in conformance with and supportive of the goals, objectives and strategies of the Comprehensive Plan?
- b) Is the project supported by County sponsored service plans, master plans, strategic plans or special studies?
- c) Does the project relate to the results of the citizen survey, Board of Supervisor policy, or appointed committee or board?

- c) Is there a significant external funding source that can only be used for this project and/or which will be lost if not used immediately (e.g. proffers, grants through various federal or state initiatives, and private donations)?

Note: It's possible that certain projects in this category will be of such urgency or importance that they will receive priority funding regardless of the overall score.

9) Impact on Operational Budget (5%)

Some projects may affect the operating budget for the next few years or for the life of the facility. A fire station or library must be staffed and supplied; therefore these projects have an impact on the operational budgets for the life of the facility. Replacing a storm water line will not require any additional resources from the operational budget. The score will be based on considerations such as:

- a) Is the project in conformance with and supportive of the goals, objectives and strategies of the Comprehensive Plan?
- b) Is the project supported by County sponsored service plans, master plans, strategic plans or special studies?
- c) Does the project relate to the results of the citizen survey, Board of Supervisor policy, or appointed committee or board?
- d) Will the facility require additional personnel to operate?
- e) Will the project lead to a reduction in personnel or maintenance costs or increased productivity?
- f) Will the facility require significant annual maintenance?
- g) Will the new facility require additional equipment not included in the project budget?
- h) Will the new facility reduce time and resources of County or School staff maintaining current outdated systems?
- i) Will the efficiency of the project save money?
- j) Is there a revenue generating opportunity (e.g. user fees)?
- k) Does the project minimize life-cycle costs?

10) Timing/Location (5%)

Timing and location are important aspects of a project. If the project is not needed for many years it would score low in this category. If the project is close in proximity to many other projects and/or if a project may need to be completed before another one can be started it would score high in this category. The score will be based on the following considerations:

- a) Is the project in conformance with and supportive of the goals, objectives and strategies of the Comprehensive Plan?
- b) Is the project supported by County sponsored service plans, master plans, strategic plans or special studies?
- c) Does the project relate to the results of the citizen survey, Board of Supervisor policy, or appointed committee or board?
- d) When is the project needed?
- e) Do other projects require this one to be finished first?
- f) Does the project require others to be completed first? If so, what is the magnitude of potential delays?
- g) Can this project be done in conjunction with other projects?
- h) Will it be more economical to complete multiple projects together?
- i) Will it help in reducing repeated neighborhood disruptions?
- j) Will there be a negative impact of the construction and if so, can this be mitigated?
- k) Are there inter-jurisdictional considerations?
- l) Does the project use an existing County-owned or controlled site or facility?
- m) Will delay of the project result in significantly higher construction costs in the future?
- n) Does the project involve external funding or partnership where funds will be lost if not constructed?

FINANCIAL POLICY GUIDELINES

**Alamance County, North Carolina
Adopted Financial Policy Guidelines**

FINANCIAL POLICY GUIDELINES - OBJECTIVES

This financial policy is a statement of the guidelines and goals that will influence and guide the financial management practice of Alamance County, North Carolina. A financial policy that is adopted, adhered to, and regularly reviewed is recognized as the cornerstone of sound financial management. Effective financial policy:

- Contributes significantly to the Alamance County’s ability to insulate itself from fiscal crisis,
- Enhances short term and long term financial credit ability by helping to achieve the highest credit and bond ratings possible,
- Promotes long-term financial stability by establishing clear and consistent guidelines,
- Directs attention to the total financial picture of Alamance County rather than single issue areas,
- Promotes the view of linking long-run financial planning with day to day operations, and
- Provides the Staff, the Governing Body and citizens a framework for measuring the fiscal impact of government services against established fiscal parameters and guidelines.

To these ends, the following financial policy statements are presented.

FINANCIAL POLICY GUIDELINES

Alamance County, North Carolina Adopted Financial Policy Guidelines

CAPITAL IMPROVEMENT BUDGET POLICIES

1. Alamance County will consider all capital improvements in accordance with an adopted capital improvement program and budget in accordance with a long term facility plan.
2. Alamance County will develop a five-year Capital Improvement Program and Budget and review and update the plan annually.
3. Alamance County will enact an annual capital budget based on the five-year capital improvement plan. Future capital expenditures necessitated by changes in population, changes in real estate development, or changes in economic base will be calculated and included in capital budget projections.
4. Alamance County will coordinate development of the capital improvement budget with development of the operating budget. Future operating costs associated with new capital improvements will be projected and included in operating budget forecasts.
5. Alamance County will use intergovernmental assistance to finance only those capital improvements that are consistent with the capital improvement plan and County priorities, and whose operating and maintenance costs have been included in operating budget forecasts.
6. The Capital Improvement Program will include the estimated costs for Alamance County to maintain all assets at a level adequate to protect Alamance County's capital investment and to minimize future maintenance and replacement costs.
7. The Capital Improvement Program will include a projection of Alamance County's equipment replacement and maintenance needs for the next several years and will update this projection each year. From this projection a maintenance and replacement schedule will be developed and followed.
8. Alamance County will identify the estimated costs and potential funding sources for each capital project proposal before it is submitted for approval.
9. Alamance County will attempt to determine the least costly, most appropriate and most flexible financing method for all new projects.
10. Alamance County will use non-recurring revenue sources for time-limited services, capital projects, equipment requirements, or services that can be

FINANCIAL POLICY GUIDELINES

Alamance County, North Carolina Adopted Financial Policy Guidelines

terminated without significant disruption to the community or County organization.

DEBT POLICIES

General

1. Alamance County will confine long-term borrowing to capital improvements or projects that cannot be financed from current revenues except where approved justification is provided.
2. Alamance County will take a balanced approach to capital funding utilizing debt financing, Capital Reserves and pay-as-you go funding.
3. When Alamance County finances capital improvements or other projects by issuing bonds or entering into capital leases, it will repay the debt within a period not to exceed the expected useful life of the project. Target debt ratios will be annually calculated and included in the review of financial trends.

Tax Supported Debt

4. Net debt as a percentage of assessed value of taxable property shall not exceed 3%. Net debt is defined as any and all debt that is based upon the taxing authority of the County Tax Supported Debt.
5. The ratio of tax-supported debt service expenditures as a percent of total governmental fund expenditures shall not exceed 15.0% with a minimum aggregate ten-year tax-supported principal payout ratio of 50%.
6. In the event that Alamance County anticipates exceeding the policy requirements stated in items 4 and 5 above, Staff may request an exception from the Governing Body setting forth the reason and need for the exception and length of time estimated to retire the debt.

FINANCIAL POLICY GUIDELINES

Alamance County, North Carolina Adopted Financial Policy Guidelines

RESERVE POLICIES

1. Alamance County will maintain a minimum Unassigned Fund Balance, as defined by the Governmental Accounting Standards Board, at the close of each fiscal year equal to 20% of General Fund Expenditures.
2. In the event that funds are available over and beyond the policy amount, those funds may be transferred to capital reserve funds or capital projects funds at the Governing Body's discretion.
3. The Governing Body may, from time-to-time, utilize fund balances that will reduce Unassigned Fund Balance below the 20% minimum for the purposes of a declared fiscal emergency or other such purpose as to protect or enhance the long-term fiscal security of Alamance County. In such circumstances, the Governing Body will adopt a plan to restore the Unassigned Fund Balance to the target level within 36 months. If restoration cannot be accomplished within such time period without severe hardship to Alamance County, then the Governing Body will establish a different but appropriate time period.
4. In other enterprise operating funds, Alamance County shall strive to maintain positive retained earning positions to provide sufficient reserves for emergencies and revenue shortfalls.
5. Alamance County will strive to limit the designation of fund balance only for those purposes for which a legal requirement exists. Examples of such designations may include legally restricted funds, donations, and encumbered funds. In the event staff believes a designation of funds is necessary for the successful completion of a project or purchase, and no other legal basis exists for such designation, approval shall be requested from the Board of Commissioners prior to closing the accounting records for the fiscal year.

FINANCIAL POLICY GUIDELINES

Alamance County, North Carolina Adopted Financial Policy Guidelines

BUDGET DEVELOPMENT POLICIES

1. The Budget Process and Fiscal Procedures will be compliant with the North Carolina Local Government Budget and Fiscal Control Act.
2. One-time or other special revenues will not be used to finance continuing operations but instead will be used for funding special projects.
3. Alamance County will pursue an aggressive policy seeking the collection of current and delinquent property taxes, utility, license, permit and other fees due to Alamance County.
4. Budget amendments will be brought to the Governing Body for consideration as needed.
5. The Governing Body will receive a financial report at least quarterly showing year-to-date revenues and expenditures and comparing each amount to the budget as amended.
6. Alamance County will begin to develop a program to perform five-year operating budget projections that include projections of annual growth plus allowances for operating costs of new capital facilities.

CASH MANAGEMENT / INVESTMENT POLICIES

1. It is the intent of Alamance County that public funds shall be invested to the extent possible to reduce the need for property tax revenues. Funds shall be invested with the emphasis on safety and liquidity. Yield shall be a secondary consideration. All deposits and investments of County funds shall be in accordance with Chapter 159.
2. The Finance Director will establish a Cash Management Program that maximizes the amount of cash available for investment. The Program shall address at a minimum; Accounts Receivable/Billings, Accounts Payable, Receipts, Disbursements, Deposits, Payroll and Debt Service Payments.

FINANCIAL POLICY GUIDELINES

Alamance County, North Carolina Adopted Financial Policy Guidelines

CASH MANAGEMENT / INVESTMENT POLICIES

3. Alamance County will use a Central Depository to maximize the availability and mobility of cash for all funds that can be legally and practically combined.
4. Cash Flows will be forecasted and investments will be made to mature when funds are projected to be needed to meet cash flow requirements.
5. Liquidity: No less than 20% of funds available for investment will be maintained in liquid investments at any point in time.
6. Maturity: All investments will mature in no more than thirty-six months (36) months from their purchase date. Exceptions to this guideline may be authorized by the Governing Body.
7. Custody: All investments will be purchased “payment-verses-delivery” and if certificated will be held by the Finance Officer in the name of Alamance County. All non-certificated investments will be held in book-entry form in the name of Alamance County with Alamance County’s third party Custodian (Safekeeping Agent).
8. Authorized Investments: Alamance County may deposit County Funds into: Any Governing Body approved Official Depository, if such funds are secured in accordance with Chapter 159 (31). Alamance County may invest County Funds in: the North Carolina Capital Management Trust, US Treasury Securities, US Agency Securities specifically authorized in Chapter 159 and rated no lower than “AAA”, and Commercial Paper meeting the requirements of Chapter 159 plus having a national bond rating.
9. Diversification: No more than \$20 million of Alamance County’s investment funds may be invested in a specific company’s commercial paper and no more than 50% of Alamance County’s investment funds may be invested in any particular investment vehicle with the exception of North Carolina Cash Management Trust. No more than 25% of Alamance County’s investments may be invested in any one US Agency’s Securities.
10. Allocation: Investment income will be allocated to each participating fund or account based on a fair and equitable formula determined by the Finance Director.

FINANCIAL POLICY GUIDELINES

**Alamance County, North Carolina
Adopted Financial Policy Guidelines**

CASH MANAGEMENT / INVESTMENT POLICIES

11. Reporting: Not less than twice per year the Finance Director will provide an investment report to the Manager and Governing Body including the interest earned in the past six months and on the current investment portfolio including: type of investment, purchase date, price, par amount, maturity date, coupon rate, any special investment features and due diligence taken to assure investments meet guidelines.
12. Alamance County's annual financial report will be prepared according to the standards necessary to obtain the Certificate of Achievement for Excellence in Financial Reporting from the GFOA and submitted each year for that recognition.
13. Alamance County will develop a Fiscal Procedures Manual to serve as a central reference point and handbook for all spending and purchasing activities that have a fiscal impact within the County and will serve as the County's authoritative source for fiscal procedure.

Municipal Advisor Disclosure

The enclosed information relates to an existing or potential municipal advisor engagement.

The U.S. Securities and Exchange Commission (the "SEC") has clarified that a broker, dealer or municipal securities dealer engaging in municipal advisory activities outside the scope of underwriting a particular issuance of municipal securities should be subject to municipal advisor registration. Davenport & Company LLC ("Davenport") has registered as a municipal advisor with the SEC. As a registered municipal advisor Davenport may provide advice to a municipal entity or obligated person. An obligated person is an entity other than a municipal entity, such as a not for profit corporation, that has commenced an application or negotiation with an entity to issue municipal securities on its behalf and for which it will provide support. If and when an issuer engages Davenport to provide financial advisory or consultant services with respect to the issuance of municipal securities, Davenport is obligated to evidence such a financial advisory relationship with a written agreement.

When acting as a registered municipal advisor Davenport is a fiduciary required by federal law to act in the best interest of a municipal entity without regard to its own financial or other interests. Davenport is not a fiduciary when it acts as a registered investment advisor, when advising an obligated person, or when acting as an underwriter, though it is required to deal fairly with such persons.

This material was prepared by public finance, or other non-research personnel of Davenport. This material was not produced by a research analyst, although it may refer to a Davenport research analyst or research report. Unless otherwise indicated, these views (if any) are the author's and may differ from those of the Davenport fixed income or research department or others in the firm. Davenport may perform or seek to perform financial advisory services for the issuers of the securities and instruments mentioned herein.

This material has been prepared for information purposes only and is not a solicitation of any offer to buy or sell any security/instrument or to participate in any trading strategy. Any such offer would be made only after a prospective participant had completed its own independent investigation of the securities, instruments or transactions and received all information it required to make its own investment decision, including, where applicable, a review of any offering circular or memorandum describing such security or instrument. That information would contain material information not contained herein and to which prospective participants are referred. This material is based on public information as of the specified date, and may be stale thereafter. We have no obligation to tell you when information herein may change. We make no representation or warranty with respect to the completeness of this material. Davenport has no obligation to continue to publish information on the securities/instruments mentioned herein. Recipients are required to comply with any legal or contractual restrictions on their purchase, holding, sale, exercise of rights or performance of obligations under any securities/instruments transaction.

The securities/instruments discussed in this material may not be suitable for all investors or issuers. Recipients should seek independent financial advice prior to making any investment decision based on this material. This material does not provide individually tailored investment advice or offer tax, regulatory, accounting or legal advice. Prior to entering into any proposed transaction, recipients should determine, in consultation with their own investment, legal, tax, regulatory and accounting advisors, the economic risks and merits, as well as the legal, tax, regulatory and accounting characteristics and consequences, of the transaction. You should consider this material as only a single factor in making an investment decision.

The value of and income from investments and the cost of borrowing may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions or companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance and estimates of future performance are based on assumptions that may not be realized. Actual events may differ from those assumed and changes to any assumptions may have a material impact on any projections or estimates. Other events not taken into account may occur and may significantly affect the projections or estimates. Certain assumptions may have been made for modeling purposes or to simplify the presentation and/or calculation of any projections or estimates, and Davenport does not represent that any such assumptions will reflect actual future events. Accordingly, there can be no assurance that estimated returns or projections will be realized or that actual returns or performance results will not materially differ from those estimated herein. This material may not be sold or redistributed without the prior written consent of Davenport.

Moody's Methodology Updates

Moody's

- On December 16, 2016, Moody's updated its US Local Governments General Obligation Debt methodology and assumptions.
- Under the new methodology, an initial indicative rating is calculated from a weighted average of four key factors:

US Local Governments General Obligation Debt Methodology

1. Economy / Tax Base	30%
Tax Base Size (Full Value)	10%
Full Value Per Capita	10%
Wealth (Median Family Income)	10%
2. Finances	30%

Qualitative Scoring Factors

Below-the-Line Adjustments	Other Considerations ¹
Economy / Tax Base	
1 Institutional presence (+)	Per capita income
3 Regional economic center (+)	Composition of workforce/employment opportunities
4 Economic concentration (-)	Proportion of tax base that is vacant or exempt from taxes
5 Outsized unemployment or poverty levels (-)	Median home value
6 Trend of real estate values	Trend of real estate values
7 Population trends	Population trends
8 Property tax appeals outstanding	Property tax appeals outstanding
9 Unusually significant tax base declines or growth	Unusually significant tax base declines or growth
10	
Finances	
11	
12 Outsized enterprise or contingent liability risk (-)	Questionable balance sheet items that may distort fund balance
13 Unusually volatile revenue structure (-)	Large portion of fund balance that is restricted or unusable
14 Labor contracts that materially affect credit strength	Labor contracts that materially affect credit strength
15 Limited revenue raising ability.	Limited revenue raising ability.
16 Restrictive property tax cap	Restrictive property tax cap
17 Constraints on capturing tax base growth	Constraints on capturing tax base growth
18 Other levy-raising limitation	Other levy-raising limitation
19 Limited ability to cut or control expenditures.	Limited ability to cut or control expenditures.
20 Limitation constrains budgetary flexibility to a degree not already captured in the scorecard	Limitation constrains budgetary flexibility to a degree not already captured in the scorecard
21 Heavy fixed costs, including contractually fixed costs such as pension payments	Heavy fixed costs, including contractually fixed costs such as pension payments
22 Management	
23 State oversight or support (+ or -)	
24 Unusually strong or weak budget management and planning (+ or -)	
25	
Debt / Pensions	
26	
27 Unusually weak or strong security features (- or +)	Very high or low debt service relative to budget
28 Unusual risk posed by debt structure (-)	Very high or low overall debt burden (including overlapping debt)
29 History of missed debt service payments (-)	Heavy capital needs implying future debt increases
30 Unusually slow or rapid amortization of debt principal (gauged by the percentage of principal repaid within 10 years)	Unusually slow or rapid amortization of debt principal (gauged by the percentage of principal repaid within 10 years)
31 Other post-employment benefits (OPEB), the most significant of which is retiree healthcare liabilities, when they have the potential to significantly constrain operational flexibility	Other post-employment benefits (OPEB), the most significant of which is retiree healthcare liabilities, when they have the potential to significantly constrain operational flexibility

¹ These other considerations include factors specifically outlined in Moody's rating methodology. However, any information regarding an issuer can rise to the level of a qualitative factor/consideration as deemed appropriate by the rating analyst and credit committee.

Note: Qualitative adjustments consisting of either a ½ “notch” up or down (+/- ~0.16 on the scorecard) or a full “notch” up or down (+/- ~0.33 on the scorecard) can be added or subtracted from the initial indicative rating, as applicable.

Alamance (County of) NC

Update to credit analysis

Summary
Alamance County, NC will continue to benefit from its central location between the population centers of Greensboro (Aaa stable) and Durham (Aaa stable). The county continues to experience residential and commercial development, particularly along I-40. Reserves are solid and the county has maintained strong sales tax revenues despite the pandemic. Fixed costs are low but wealth levels are below the median for the rating category.

Credit strengths

- » Solid cash and fund balances
- » Moderate fixed cost burden

Credit challenges

- » Below average wealth levels

Rating outlook
Outlooks are not typically assigned to issuers with this amount of debt outstanding.

Factors that could lead to an upgrade

- » Improved wealth levels and tax base growth
- » Increased reserve levels

Factors that could lead to a downgrade

- » Erosion of financial position
- » Increased debt burden

Rating Agency Commentary – S&P (4/7/2021)

Summary: Alamance County, North Carolina; General Obligation

Credit Profile		
US\$173.76 mil GO pub imp bnds ser 2021 due 05/01/2041	AA/Stable	New
Long Term Rating Alamance Cty GO	AA/Stable	Affirmed
Long Term Rating		

Rating Action

S&P Global Ratings assigned its 'AA' long-term rating to Alamance County, NC's 2021 general obligation (GO) bonds (\$173.8 million). At the same time, S&P Global Ratings affirmed its 'AA' long-term rating on the county's GO debt outstanding obligations outstanding. The outlook is stable.

The county's full faith and credit pledge secures its GO bonds to levy on all property taxable by the county ad valorem taxes, without limitation as to rate or amount, as may be necessary for repayment of principal and interest. The GO public improvement bond proceeds will fund capital projects at various school projects throughout the Alamance-Burlington School System (\$150 million) and community college (\$23.8 million) infrastructure projects. The 2021 bonds constitute part of the bond referendum passed by voters on Nov. 6, 2018.

Credit overview

The rating reflects the county's consistently strong performance and robust available fund balance, sustained by management's conservative budgeting and collaboration among operational stakeholders. As the county lies 32 miles west of Chapel Hill and 25 miles east of Greensboro, it has taken part and benefited from the wider region's economic growth in recent years. The county's largest employment sectors include health care (18%), manufacturing (15%), and retail trade (15%), and it continues to diversify its economic base. We expect the county's debt, pension, and other postemployment benefit (OPEB) liabilities to remain stable and manageable for the county over the medium term. While the county has produced consistent surpluses over the past decade, it also received \$6.2 million in CARES Act funding in fiscal 2020, which facilitated another year of positive operations. In addition, the county expects to receive approximately \$32 million in American Rescue Plan Act funds. Over the outlook period, we expect the county to continue its trend of conservative budgeting, producing at least break-even operations.

The rating further reflects the county's:

- Adequate economy, with access to a broad and diverse metropolitan statistical area (MSA);
- Strong management, with good financial policies and practices under our Financial Management Assessment methodology;
- Strong budgetary performance, with balanced operating results in the general fund and an operating surplus at the

WWW.STANDARDANDPOORS.COM/RATINGSDIRECT

APRIL 7, 2021 2

- The 'AA' rating reflects S&P's opinion of the County's:
 - Adequate economy, with access to a broad and diverse metropolitan statistical area (MSA);
 - Strong management, with good financial policies and practices under our Financial Management Assessment methodology;
 - Strong budgetary performance, with balanced operating results in the general fund and an operating surplus at the total governmental fund level in fiscal 2020;
 - Very strong budgetary flexibility, with an available fund balance in fiscal 2020 of 21% of operating expenditures;
 - Very strong liquidity, with total government available cash at 54.3% of total governmental fund expenditures and 9.2x governmental debt service, and access to external liquidity we consider strong;
 - Strong debt and contingent liability position, with debt service carrying charges at 5.9% of expenditures and net direct debt that is 117.7% of total governmental fund revenue, as well as low overall net debt at less than 3% of market value; and
 - Very strong institutional framework score.
- Upside Scenario
 - If the county's economic indicators were to increase to levels we consider commensurate with higher-rated peers, and the county maintained its strong financial performance and very strong reserves, we could raise the rating.
- Downside Scenario
 - We could lower the rating should the county experience several years of budgetary pressure, leading to materially weakened available fund balances or should it deviate from adhering to its formal financial management policies.

S&P Methodology Update & Scorecard

Methodology Update

- On September 12, 2013, Standard & Poor's updated its US Local Governments General Obligation Ratings methodology and assumptions.
- Under the new methodology, an initial indicative rating is calculated from a weighted average of seven key factors:

US Local Governments General Obligation Ratings Methodology

1. Economy 30%

Total Market Value Per Capita
Projected per capita effective buying income as a % of US

2. Management 20%

Impact of management conditions on the likelihood of repayment

3. Budgetary Flexibility 10%

Available Fund Balance as a % of Expenditures

4. Budgetary Performance 10%

Total Government Funds Net Result (%)
General Fund Net Revenue

5. Liquidity 10%

Total Gov't Available Cash as a % of Total Gov't Funds Debt Service
Total Gov't Cash as a % of Total Gov't Funds Expenditures

6. Debt and Contingent Liabilities 10%

Net Direct Debt as a % of Total Governmental Funds Revenue
Total Governmental Funds Debt Service as a % of Total

7. Institutional Framework 10%

Legal and practical environment in which the local gov't operates

- 100
- Up to a one-notch adjustment can be made from the indicative rating based on other qualitative factors.

Key Debt Ratio: Tax Supported Payout Ratio

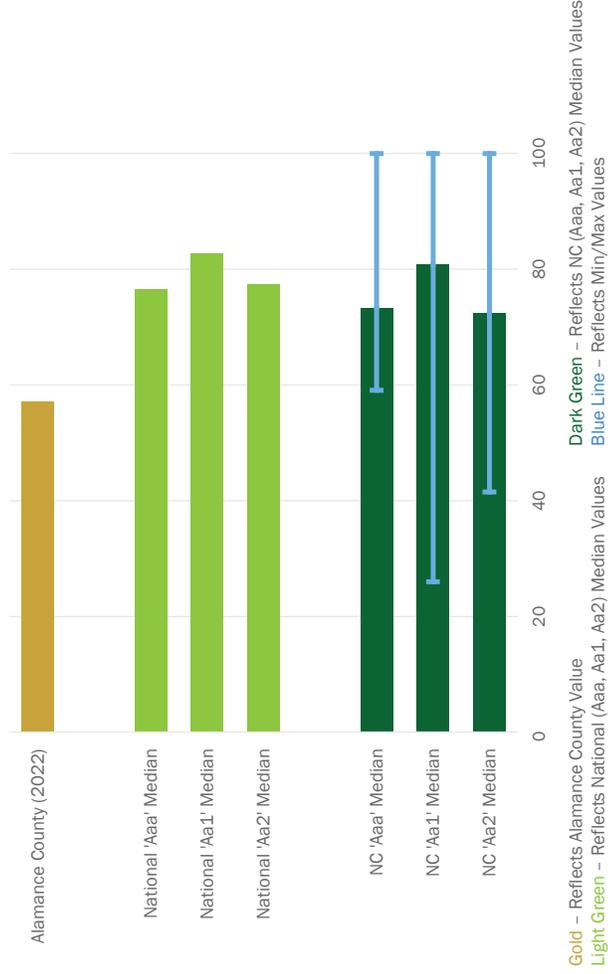

10-Year Payout Ratio

- Existing 10-year Payout Ratio
 - FY 2022: 57.2%
- The 10-Year Payout Ratio measures the amount of principal to be retired in the next 10 years.
- This ratio is an important metric that indicates whether or not a locality is back-loading its debt.
- The County has established a minimum 10-year payout ratio of 50.00%.

10-year Payout Ratio Peer Comparative

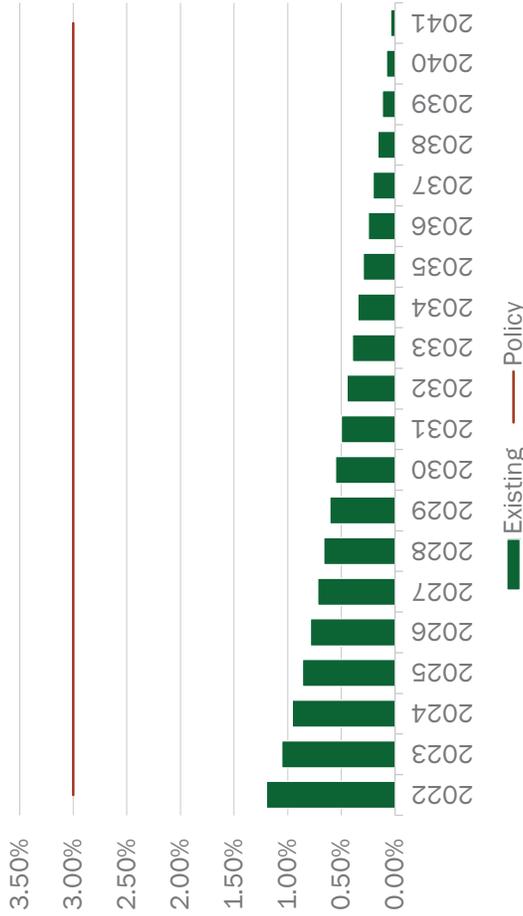

Rating Considerations:

- Moody's: Moody's rating criteria for General Obligation credits allows for a scorecard adjustment if an issuer has unusually slow or rapid amortization of debt principal.
- S&P: A payout ratio greater than 65% results in a one point positive qualitative adjustment to the Debt & Contingent Liabilities section of S&P's General Obligation rating methodology.

Key Debt Ratio: Debt to Assessed Value

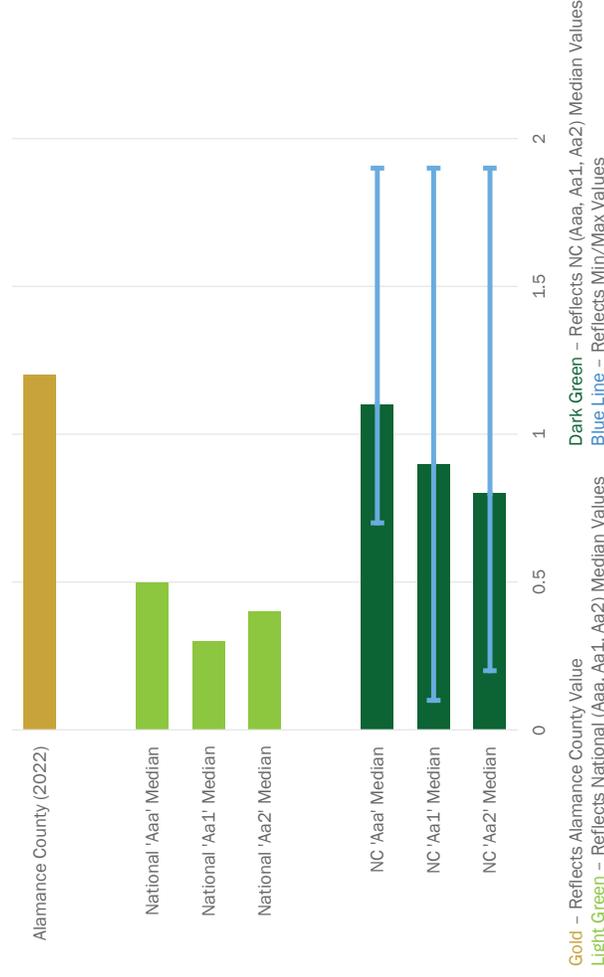

Debt to Assessed Value

- Existing Debt to Assessed Value
 - FY 2022: 1.20%
- Assumed Future Growth Rates
 - 2022 Budgeted Assessed Value: \$15,525,671,460
 - 2023 Estimated Assessed Value*: \$16,252,097,911
 - 2024 & Beyond: 1.00%
- The County has established a maximum Debt to Assessed Value ratio of 3.00%.

Debt to Assessed Value Peer Comparative

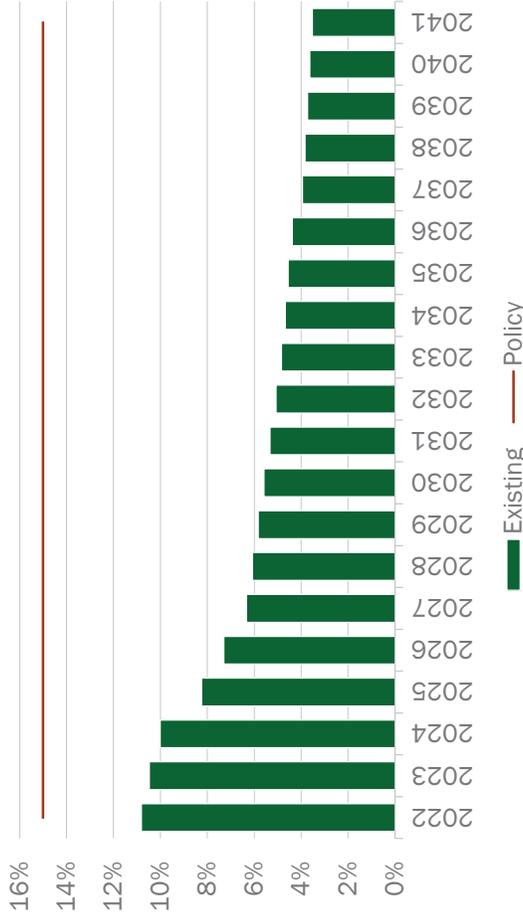

- Rating Considerations:
 - Moody's: Criteria for General Obligation Credits defines categories of Debt to Assessed Values as:
 - Very Strong (Aaa): < 0.75%
 - **Strong (Aa): 0.75% - 1.75%**
 - Moderate (A): 1.75% - 4.50%
 - Weak - Very Poor (Baa and below): > 4.00%
 - S&P: A positive qualitative adjustment is made to the Debt and Contingent Liabilities score for a debt to market value ratio below 3.00%, while a negative adjustment is made for a ratio above 10.00%.

*Estimated as of 4/7/2022. Preliminary and subject to change.

Key Debt Ratio: Debt Service vs. Expenditures

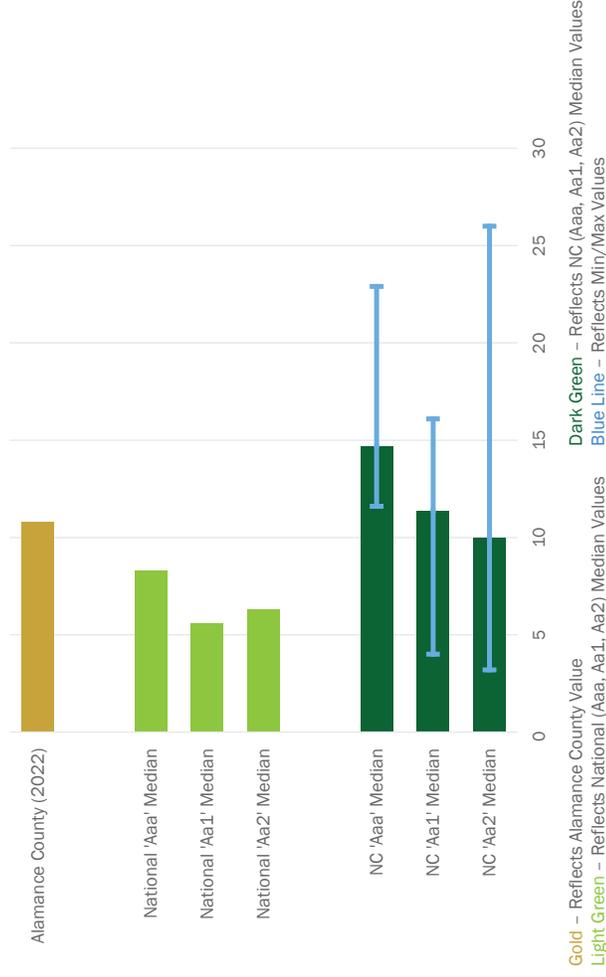

Debt Service vs. Governmental Expenditures

- Existing Debt Service vs. Expenditures — FY 2022: 10.82%
- Assumed Future Growth Rates
- 2021 Adjusted Expenditures: \$172,691,795
- 2022 & Beyond 1.00%
- The County has established a maximum Debt Service to Expenditures ratio of 15.00%.

Debt Service vs. Expenditures Peer Comparative

Rating Considerations:

- Moody's: Moody's criteria allows for a scorecard adjustment if an issuer has very high or low debt service relative to its budget Percent.
- S&P: The Debt and Contingent Liabilities section defines categories of Net Direct Debt as a % of Total Governmental Funds Expenditures as follows:
 - Very Strong: <8%
 - Strong: 8% to 15%**
 - Adequate: 15% - 25%
 - Weak: 25% - 35%
 - Very Weak: > 35%

Note: Governmental Expenditures represent the ongoing operating expenditures of the County. In this analysis, debt service and capital outlay expenditures are excluded.

County Funding Plan Update as of 5/25/2022

Future Capital Project Financing Assumptions

■ The following assumptions have been utilized for the various debt issuances by the County, Schools, and Community College:

- Debt Service Payments
- First Principal: FY Following Issuance
- First Interest:
 - July – December Issuances: FY of Issuance (6 months)
 - January – June Issuances: FY Following Issuance
- Amortization: Level Principal
- Term / Interest Rate:
 - Other County Projects: 20 Years at 5.00%
 - ABSS/ACC GO Bonds: 20 Years at 5.00%
 - ACC Other Projects: 20 Years at 5.00%

Proposed Capital Projects

¹ Pay-Go Capital (CIP) includes a \$1.2 million Diversion Center project in FY 2020 and a \$2.9 million Animal Shelter project in FY 2021.

² Actual Federal subsidies provided by County Staff.

³ In addition to County contributions for the Radio Equipment IFC, Snow Camp FD, North Eastern Alamance FD, and EM Holt FD also make contributions to fund debt service on this loan.

⁴ Includes Interest Earnings, Prior Year Close Outs, Woody Drive Property Sale proceeds of \$508,604.67 and revenues made available to pay the debt service on the County's 2019 "Penny Plan" IPC and 2020 Rescue Truck IFC. FY 2022 includes one-time contribution of \$4,580,812 from GF Balance above policy limits.

⁵ Beginning Balance Per County Staff

- FY 2023 Value of a Penny⁴: \$1,602,686
- Assumed Growth Rate (FY 2024+): 1.00%

¹ Per County Staff.

¹ Pay-Go Capital (CIP) beginning in FY 2022 equal to \$3.3 million annually.
² Operating Cost Estimates provided by ABSS on 2/5/2021. Assumes operating costs begin on 7/1/2023 with 2% growth through FY 2030 and no growth thereafter.
³ Federal subsidies include a 4.87% subsidy for the QSCB that has been provided by the County. The subsidies are calculated/gross of the Federal Government's 6.2% sequestration in FY 2020 and beyond.
⁴ Original analysis assumed \$6,782,107 beginning in FY 2022. Based on recent trends, the assumption has been revised to the FY 2020 level.
⁵ NC Lottery Revenues for the County were \$384,767 in Q1 of FY 2018 which has been annualized to equal \$1,459,068. The amount does not include interest earnings of \$21,389,787. The FY 2017 annual Lottery Revenues for the County were \$1,716,595 and interest earnings of \$42,745 (or total revenues of \$1,759,340).
⁶ Includes Interest Earnings and Miscellaneous Revenue. Does not include Interest Earnings on Bond Proceeds (\$1,924,90 as of 6/30/2021).
⁷ FY 2019 Beginning Balance per County Staff. Note, balance includes funds to be reimbursed from bond issuance.

- FY 2023 Value of a Penny¹: \$1,602,686
 - Assumed Growth Rate (FY 2024+): 1.00%
- ¹ Per County Staff.

Note: The County receives a direct pay subsidy from the Federal Government equal to a tax credit rate at the time it was locked of 4.87%. Due to sequestration of 5.7% for the current year, the subsidy has been effectively reduced to 4.57% which has left the County with an effective interest rate of 0.94% on its 2010 QSCB.

Alamance (County of) NC

Update to credit analysis

Summary

[Alamance County](#), NC will continue to benefit from its central location between the population centers of [Greensboro](#) (Aaa stable) and [Durham](#) (Aaa stable). The county continues to experience residential and commercial development, particularly along I-40. Reserves are solid and the county has maintained strong sales tax revenues despite the pandemic. Fixed costs are low but wealth levels are below the median for the rating category.

Credit strengths

- » Solid cash and fund balances
- » Moderate fixed cost burden

Credit challenges

- » Below average wealth levels

Rating outlook

Outlooks are not typically assigned to issuers with this amount of debt outstanding.

Factors that could lead to an upgrade

- » Improved wealth levels and tax base growth
- » Increased reserve levels

Factors that could lead to a downgrade

- » Erosion of financial position
- » Increased debt burden

Key indicators

Profile

Alamance County is located in north central North Carolina, between the Piedmont Triad and the Research Triangle. The county seat of Graham is approximately 20 miles east of Greensboro. The county has a population of 170,483.

Detailed credit considerations

Economy and tax base: Growing base with below average wealth levels

Alamance County will continue to benefit from its location along I-40 which is spurring ongoing residential, commercial and industrial development. The largest industry sectors that drive the local economy are health services, retail trade, and manufacturing. Current development includes [United Parcel Service](#) UPS (A2 negative) building, a \$262 million distribution center, and Chick-fil-a will also build a distribution center, at a value of \$52 million and with an anticipated 160 new jobs. The county's largest employers include [Laboratory Corporation of America Holdings](#) (Baa2 stable) and Cone Health Alamance Regional Hospital. Unemployment in the county was 5.9% in January 2021, comparable to the state (6.0%) and below the nation (6.8%).

The county's full value of \$15 billion exceeds the median for Aa-rated counties of \$8.3 billion and has grown at a compound average annual rate of 2.9% over the last five years. Wealth levels are below average at 84.2% of the US median. Full value per capita is similar to the median at \$92,091.

Financial operations and reserves:

The county's reserves will remain healthy and continue to grow in line with the budget. In fiscal 2020, the county ran a \$2.3 million surplus, increasing available fund balance to \$52.5 million or a solid 29.7% of revenues, slightly below the median for Aa-rated counties of 36%.

This publication does not announce a credit rating action. For any credit ratings referenced in this publication, please see the ratings tab on the issuer/entity page on www.moody.com for the most updated credit rating action information and rating history.

Management reduced the budget for fiscal 2021 given projected declines in sales tax revenues due to the pandemic. Favorably, however, year-to-date sales tax collections are up 12.2% from fiscal 2020. Management currently expects to run a general fund surplus in fiscal 2021.

Reserves are primarily property taxes (55.7%) and sales taxes (17.9%).

Liquidity

The county's cash position at the end of fiscal 2020 totaled \$51.1 million or a healthy 29.1%.

Debt and pensions: Moderate fixed cost burden

The direct debt burden, after the current issuance, is 1.4%, and exceeds the median for Aa-rated counties of 0.5%. North Carolina counties issue debt for community college and school districts, so counties in the state typically carry higher debt burdens than other counties nationwide. Alamance's five-year capital improvement plan totals \$254 million, and includes \$178 million for schools and \$43 million for community colleges. Approximately \$218 million, or 86% of the capital plan, will be debt funded, including the current issuance.

Legal security

The bonds constitute general obligations of the county, and are secured by the county's faith and credit pledge.

Debt structure

All debt is fixed rate.

Debt-related derivatives

The county is not party to any derivative agreements.

Pensions and OPEB

Pension costs are not a source of pressure for the county, and are expected to remain manageable. The county participates in the North Carolina Local Government Employees Retirement System, multi-employer, defined benefit retirement plans sponsored by the State of North Carolina. The county also has its own Law Enforcement Separation Allowance systems.

The 3-year average combined adjusted net pension liability, under Moody's methodology for adjusting reported pension data, was \$90.2 million in fiscal 2020 or a below average 0.54 times operating revenue. Moody's uses the adjusted net pension liability to improve comparability of reported pension liabilities. We determined the county's share of liability for the state-run plans in proportion to its contributions to the plans. Fixed costs, which includes debt service payments, pension and other post employment benefits (pay-go), are \$16.4 million or a low 9.4% of operating expenditures.

ESG considerations

Environmental

Environmental factors represent a moderate risk to Alamance County's credit profile. According to data from compiled by Moody's affiliate Four Twenty Seven, the county has a very high risk for hurricanes. This exposure is largely mitigated by the county's strong reserves and [federal government support](#) for disaster recovery costs.

Social

Social issues, [including demographics and income levels](#), are key influencers of all local economies, financial and leverage trends and governance stability. Social factors are incorporated into the county's credit profile.

We regard the coronavirus outbreak as a social risk under our ESG framework, given the substantial implications for public health and safety. Alamance County is not susceptible to immediate material credit risks related to coronavirus. The longer-term impact will depend on both the severity and duration of the crisis. The situation surrounding coronavirus is rapidly evolving. If our view of the credit quality of the county changes, we will update the rating and/or outlook at that time.

Governance

[Governance](#) is a material consideration for credit profiles across every sector. Management is conservative, as shown by consistent surplus operations and reserves which have grown in line with the budget.

North Carolina counties have an institutional framework score of "Aaa", which is the strongest. Counties operate under limited levy constraints. Pensions are well-funded. Expenditures, which are largely for personnel, are predictable and counties have the legal ability to reduce expenditures if necessary, as it is a right to work state. Additionally, North Carolina counties benefit from strong state oversight by the Local Government Commission.

Rating methodology and scorecard factors

The US Local Government General Obligation Debt methodology includes a scorecard, a tool providing a composite score of a local government's credit profile based on the weighted factors we consider most important, universal and measurable, as well as possible notching adjustments dependent on individual credit strengths and weaknesses. Its purpose is not to determine the final rating, but rather to provide a standard platform from which to analyze and compare local government credits.

Long Term Rating AA/Stable New

Alamance Cnty GO

Long Term Rating AA/Stable Affirmed

Rating Action

S&P Global Ratings assigned its 'AA' long-term rating to Alamance County, N.C.'s 2021 general obligation (GO) bonds (\$173.8 million). At the same time, S&P Global Ratings affirmed its 'AA' long-term rating on the county's GO debt outstanding obligations outstanding. The outlook is stable.

The county's full faith and credit pledge secures its GO bonds to levy on all property taxable by the county ad valorem taxes, without limitation as to rate or amount, as may be necessary for repayment of principal and interest. The GO public improvement bond proceeds will fund capital projects at various school projects throughout the Alamance-Burlington School System (\$150 million) and community college (\$23.8 million) infrastructure projects. The 2021 bonds constitute part of the bond referendum passed by voters on Nov. 6, 2018.

Credit overview

The rating reflects the county's consistently strong performance and robust available fund balance, sustained by management's conservative budgeting and collaboration among operational stakeholders. As the county lies 32 miles west of Chapel Hill and 25 miles east of Greensboro, it has taken part and benefitted from the wider region's economic growth in recent years. The county's largest employment sectors include health care (18%), manufacturing (15%), and retail trade (15%), and it continues to diversify its economic base. We expect the county's debt, pension, and other postemployment benefit (OPEB) liabilities to remain stable and manageable for the county over the medium term. While the county has produced consistent surpluses over the past decade, it also received \$6.2 million in CARES Act funding in fiscal 2020, which facilitated another year of positive operations. In addition, the county expects to receive approximately \$32 million in American Rescue Plan Act funds. Over the outlook period, we expect the county to continue its trend of conservative budgeting, producing at least break-even operations.

The rating further reflects the county's:

- Adequate economy, with access to a broad and diverse metropolitan statistical area (MSA);
- Strong management, with good financial policies and practices under our Financial Management Assessment methodology;
- Strong budgetary performance, with balanced operating results in the general fund and an operating surplus at the

total governmental fund level in fiscal 2020;

- Very strong budgetary flexibility, with an available fund balance in fiscal 2020 of 21% of operating expenditures;
- Very strong liquidity, with total government available cash at 54.3% of total governmental fund expenditures and 9.2x governmental debt service, and access to external liquidity we consider strong;
- Strong debt and contingent liability position, with debt service carrying charges at 5.9% of expenditures and net direct debt that is 117.7% of total governmental fund revenue, as well as low overall net debt at less than 3% of market value; and
- Very strong institutional framework score.

Environmental, social, and governance (ESG) factors

We analyzed the county's environmental, social, and governance (ESG) risks relative to its economy, budgetary outcomes, management, and debt and long-term liability profile, and view them as consistent with those of the sector.

Stable Outlook

Upside scenario

If the county's economic indicators were to increase to levels we consider commensurate with higher-rated peers, and the county maintained its strong financial performance and very strong reserves, we could raise the rating.

Downside scenario

We could lower the rating should the county experience several years of budgetary pressure, leading to materially weakened available fund balances or should it deviate from adhering to its formal financial management policies.

Credit Opinion

Adequate economy

We consider the county's economy adequate. Alamance County, with an estimated population of 170,483, is located in the Burlington, NC MSA, which we consider to be broad and diverse. The county has a projected per capita effective buying income of 75.1% of the national level and per capita market value of \$88,224. Overall, the county's market value grew by 2.2% over the past year to \$15.0 billion in 2021. The county unemployment rate was 3.8% in 2019; however, precipitously peaked to 12.7% in May 2020 as a result of the COVID-19 pandemic and associated stay-at-home orders. The county's January 2020 unemployment rate was 5.9%, which was about equal to the state rate (5.7%) and lower than the national rate (6.3%) during the same period.

The county, located in north central North Carolina, is 424 square miles organized into three cities, six towns and one village. The county is also situated between two of the state's largest and most economically vibrant metropolitan areas: the Piedmont Triad (Greensboro, High Point, and Winston-Salem) and the Research Triangle (Raleigh, Durham, and Chapel Hill). County residents have easy access to major regional employers including Cone Health, Ralph Lauren Corp., and Bank of America in Greensboro, as well as the University of North Carolina Chapel Hill. Many county residents choose to reside in Alamance County and commute into these surrounding areas for employment partly as a

result of its relatively lower property tax rates, currently the lowest in the surrounding area. This has led to consistent residential and retail growth throughout the county. In addition, due to the county's location between both metropolitan areas, the county has seen growth in new large distribution centers, particularly in its North Carolina Commerce Park, a 1,200 acre park just off of Interstate 40/85, and the North Carolina Industrial Center, a 900-acre industrial park. The county's immediate economy has historically been concentrated in manufacturing and continues to be heavily industrialized. However, as textile manufacturing has waned, diversification is progressing toward a broader manufacturing mix, as well as education and health services. The presence of two large shopping malls, Alamance Crossing and Tanger Outlets, has continued to contribute to robust retail sales per capita and, as of 2019, Flexaust, National OnDemand, UPS, and Chick-fil-A have announced and/or begun projects totaling \$323 million in investment and yielding approximately 700 new jobs.

Strong management

We have revised the county's management from adequate to strong, with good financial policies and practices under our Financial Management Assessment methodology, indicating financial practices exist in most areas, but that governance officials might not formalize or monitor all of them on a regular basis.

When drafting the budget, management analyzes historical trends for revenue and expenditures assumptions. Officials also work closely with the county assessor and economic development office for revenue estimates. Budget-to-actual performance is reported to the county commissioners on a quarterly basis. Budget amendments are brought to the governing body for consideration as needed. The county maintains a formal investment policy, and investment reports are submitted to the state twice per year. The county has a formal debt policy that limits net debt as a percentage of assessed value of taxable property at 3%, and stipulates a maximum of tax-supported debt service expenditures to 15% of total governmental fund expenditures; should the county exceed its debt policy requirements, staff may request an exception from the governing body. The county also implemented a formal long-term financial plan as part of its fiscal year 2022 budget development process. In addition, the county has a comprehensive five-year capital improvement plan that identifies funding sources and projects. The county's formal fund balance policy calls for the maintenance of unassigned fund balance as to stay at least 20% of general fund expenditures; in the instance that the county reduces its unassigned fund balance below the 20% minimum, the governing body will adopt a plan to restore such fund balance to the target level within 36 months. Alamance has been below its 20% level since fiscal year 2017 but is modeling and on track to get the unassigned fund balance to the target 20% level. However, the county expects to add \$3 million to fund balance as of the end of fiscal year 2021.

Strong budgetary performance

Alamance County's budgetary performance is strong in our opinion. The county had balanced operating results in the general fund of 0.3% of expenditures, and surplus results across all governmental funds of 5.1% in fiscal 2020.

The county's revenues are primarily property tax (56%), followed by local option sales tax (18.5%), state aid (12.8%), and sales and services revenues (8.5%).

Operating results are adjusted to reflect recurring transfers and to account for expenditures financed through debt proceeds. For fiscal 2020, the county's operating surplus was approximately \$5.0 million. In addition, the county received about \$6.2 million in CARES Act funding, of which \$1.5 million was distributed to municipal partners and

flows through a separate governmental fund. The county allocated much of the funds for PPE, sanitizing court facilities, screening of citizens and staff, and broadband expansion for the county school district. The county also spent some funds on two rounds of hazard pay for frontline workers. In addition, the county allotted \$300,000 for a small business program by partnering with the chamber of commerce and community college, of which 80% has been distributed.

The county's fiscal 2021 budget was approved at \$153.9 million, an almost 4% decrease from its fiscal 2020 budget, and includes a \$5.1 million fund balance appropriation. The county took conservative measures in its budget preparation for this year given the COVID-19 pandemic and the associated economic recession. As the county expected a 20% decrease in sales tax revenues, the county froze 25 full-time vacant positions in various departments, eliminated all capital improvement project funding and limited capital equipment funding to public safety only, eliminated a 2% merit increase for employees, and reduced funding for Alamance-Burlington School System and Alamance Community College operating budgets. However, according to the county's mid-year receipts, sales tax revenues are outperforming budgeted expectations (actual fiscal 2020 results) by 12% through November. The county receives its sales tax distribution from the state, which results in about a three-month lag. The county regularly appropriates fund balance into its budgets; however, it has also consistently added to fund balance rather than drawn from the fund. The county projects to end the fiscal year with about a \$3 million operating surplus at the end of fiscal 2021.

The county is in the process of preparing its fiscal 2022 budget, for which it is also expecting to receive approximately \$32 million from the American Rescue Plan Act. The county has not yet determined how it would possibly utilize the funds. Given the consistency of the county's budgeting over the last decade, we expect budgetary performance to remain strong over the outlook period.

Very strong budgetary flexibility

Alamance County's budgetary flexibility is very strong, in our view, with an available fund balance in fiscal 2020 of 21% of operating expenditures, or \$37.3 million. Over the past three years, the total available fund balance has remained at a consistent level overall, totaling 21% of expenditures in 2019 and 22% in 2018. The county expects to add about \$3 million to its fund balance at the end of fiscal 2021.

The county has posted increases in its available general fund balance each year since 2012. As management expects at least balanced results for fiscal 2021 with no plans to drawdown the county's fund balance, we expect Alamance's budgetary flexibility to remain very strong over the next few years.

Very strong liquidity

In our opinion, Alamance County's liquidity is very strong, with total government available cash at 54.3% of total governmental fund expenditures and 9.2x governmental debt service in 2020. In our view, the county has strong access to external liquidity if necessary.

In our view, Alamance's strong access to external liquidity is demonstrated by frequent GO debt issuances over the past 10 years. The county does not engage in the aggressive use of investments that we view as likely to add significant volatility to its liquidity position. In addition, the county is not exposed to variable-rate debt that could result in undue liquidity pressures; however, it maintains \$4.5 million in installment loans with an acceleration

provision for one loan that is currently \$55,000 outstanding. As the total amount outstanding is less than 3% of general fund revenue, we do not view these instruments as a significant liquidity risk given our understanding of state statutes that limit deficiency judgments against local governments that issue installment contracts. In addition, the acceleration provisions are triggered on non-payment, which we view as unlikely based on our overall assessment of the county's general credit worthiness.

Strong debt and contingent liability profile

In our view, Alamance County's debt and contingent liability profile is strong. Total governmental fund debt service is 5.9% of total governmental fund expenditures, and net direct debt is 117.7% of total governmental fund revenue. Overall net debt is low at 1.5% of market value, which is in our view a positive credit factor.

As of this issuance the county will have about \$216 million in direct debt. Alamance expects to issue about \$37.9 million in debt over the next two years for its community college and school system projects and also county-related projects. We do not anticipate our view of the county's debt burden to change as a result.

Pension and OPEB liabilities

We do not view pension and OPEB liabilities as an immediate source of credit risk for Alamance County, given our opinion of the plan's current strong funding status and limited escalating cost trajectory risk.

Although OPEB liabilities are typically funded on a pay-as-you-go basis, which, given claims volatility and medical cost trends, could lead to escalating costs, the county has legal flexibility to alter OPEB benefits, which we view as a means to mitigate potential cost escalations.

Alamance County participated in the following plans as of June 30, 2020:

- Local Government Employees' Retirement System (LGERS), 88.6% funded, with a proportional share of the net pension liability (NPL) equal to \$22.3 million.
- Law Enforcement Officers' Special Separation Allowance, with a NPL of \$4.2 million, which it funds on a pay-as-you-go basis.
- Register of Deeds' Supplemental Pension Fund, with a net pension asset of \$281,067 with statutory contributions set by the North Carolina General Assembly. Contributions to the plan are de minimis relative to the county's operations.

Alamance County's combined required pension and actual OPEB contributions totaled 3.1% of total governmental fund expenditures in 2020. Of that amount, 2.3% represented required contributions to pension obligations, and 0.8% represented OPEB payments. The county's net OPEB liability is \$77.5 million. The county made 107% of its annual required pension contribution in 2020. The county made its full annual required pension contribution in 2020. In general, we expect plan contributions to meet or exceed our view of minimum funding progress, partially due to the plan's closed, level-dollar, 12-year amortization that should result in timely funding progress. However, we believe LGERS' discount rate of 7% could lead to some contribution volatility.

Very strong institutional framework

The institutional framework score for North Carolina counties is very strong.

The Content shall not be used for any unlawful or unauthorized purposes. S&P and any third-party providers, as well as their directors, officers, shareholders, employees or agents (collectively S&P Parties) do not guarantee the accuracy, completeness, timeliness or availability of the Content. S&P Parties are not responsible for any errors or omissions (negligent or otherwise), regardless of the cause, for the results obtained from the use of the Content, or for the security or maintenance of any data input by the user. The Content is provided on an "as is" basis. S&P PARTIES DISCLAIM ANY AND ALL EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE, FREEDOM FROM BUGS, SOFTWARE ERRORS OR DEFECTS, THAT THE CONTENT'S FUNCTIONING WILL BE UNINTERRUPTED OR THAT THE CONTENT WILL OPERATE WITH ANY SOFTWARE OR HARDWARE CONFIGURATION. In no event shall S&P Parties be liable to any party for any direct, indirect, incidental, exemplary, compensatory, punitive, special or consequential damages, costs, expenses, legal fees, or losses (including, without limitation, lost income or lost profits and opportunity costs or losses caused by negligence) in connection with any use of the Content even if advised of the possibility of such damages.

Credit-related and other analyses, including ratings, and statements in the Content are statements of opinion as of the date they are expressed and not statements of fact. S&P's opinions, analyses and rating acknowledgment decisions (described below) are not recommendations to purchase, hold, or sell any securities or to make any investment decisions, and do not address the suitability of any security. S&P assumes no obligation to update the Content following publication in any form or format. The Content should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. S&P does not act as a fiduciary or an investment advisor except where registered as such. While S&P has obtained information from sources it believes to be reliable, S&P does not perform an audit and undertakes no duty of due diligence or independent verification of any information it receives. Rating-related publications may be published for a variety of reasons that are not necessarily dependent on action by rating committees, including, but not limited to, the publication of a periodic update on a credit rating and related analyses.

To the extent that regulatory authorities allow a rating agency to acknowledge in one jurisdiction a rating issued in another jurisdiction for certain regulatory purposes, S&P reserves the right to assign, withdraw or suspend such acknowledgment at any time and in its sole discretion. S&P Parties disclaim any duty whatsoever arising out of the assignment, withdrawal or suspension of an acknowledgment as well as any liability for any damage alleged to have been suffered on account thereof.

S&P keeps certain activities of its business units separate from each other in order to preserve the independence and objectivity of their respective activities. As a result, certain business units of S&P may have information that is not available to other S&P business units. S&P has established policies and procedures to maintain the confidentiality of certain non-public information received in connection with each analytical process.

S&P may receive compensation for its ratings and certain analyses, normally from issuers or underwriters of securities or from obligors. S&P reserves the right to disseminate its opinions and analyses. S&P's public ratings and analyses are made available on its Web sites, www.standardandpoors.com (free of charge), and www.ratingsdirect.com (subscription), and may be distributed through other means, including via S&P publications and third-party redistributors. Additional information about our ratings fees is available at www.standardandpoors.com/usratingsfees.

FINANCIAL POLICY GUIDELINES

Alamance County, North Carolina

FINANCIAL POLICY GUIDELINES - OBJECTIVES

This financial policy is a statement of the guidelines and goals that will influence and guide the financial management practice of Alamance County, North Carolina. A financial policy that is adopted, adhered to, and regularly reviewed is recognized as the cornerstone of sound financial management. Effective financial policy:

- Contributes significantly to the Alamance County’s ability to insulate itself from fiscal crisis,
- Enhances short term and long term financial credit ability by helping to achieve the highest credit and bond ratings possible,
- Promotes long-term financial stability by establishing clear and consistent guidelines,
- Directs attention to the total financial picture of Alamance County rather than single issue areas,
- Promotes the view of linking long-run financial planning with day to day operations, and
- Provides the Staff, the Governing Body and citizens a framework for measuring the fiscal impact of government services against established fiscal parameters and guidelines.

To these ends, the following financial policy statements are presented.

FINANCIAL POLICY GUIDELINES

Alamance County, North Carolina

CAPITAL IMPROVEMENT BUDGET POLICIES

1. Alamance County will consider all capital improvements in accordance with an adopted capital improvement program and budget in accordance with a long term facility plan.
2. Alamance County will develop a five-year Capital Improvement Program and Budget and review and update the plan annually.
3. Alamance County will enact an annual capital budget based on the five-year capital improvement plan. Future capital expenditures necessitated by changes in population, changes in real estate development, or changes in economic base will be calculated and included in capital budget projections.
4. Alamance County will coordinate development of the capital improvement budget with development of the operating budget. Future operating costs associated with new capital improvements will be projected and included in operating budget forecasts.
5. Alamance County will use intergovernmental assistance to finance only those capital improvements that are consistent with the capital improvement plan and County priorities, and whose operating and maintenance costs have been included in operating budget forecasts.
6. The Capital Improvement Program will include the estimated costs for Alamance County to maintain all assets at a level adequate to protect Alamance County's capital investment and to minimize future maintenance and replacement costs.
7. The Capital Improvement Program will include a projection of Alamance County's equipment replacement and maintenance needs for the next several years and will update this projection each year. From this projection a maintenance and replacement schedule will be developed and followed.
8. Alamance County will identify the estimated costs and potential funding sources for each capital project proposal before it is submitted for approval.
9. Alamance County will attempt to determine the least costly, most appropriate and most flexible financing method for all new projects.
10. Alamance County will use non-recurring revenue sources for time-limited services, capital projects, equipment requirements, or services that can be terminated without significant disruption to the community or County organization.

FINANCIAL POLICY GUIDELINES

Alamance County, North Carolina

DEBT POLICIES

General

1. Alamance County will confine long-term borrowing to capital improvements or projects that cannot be financed from current revenues except where approved justification is provided.
2. Alamance County will take a balanced approach to capital funding utilizing debt financing, Capital Reserves and pay-as-you go funding.
3. When Alamance County finances capital improvements or other projects by issuing bonds or entering into capital leases, it will repay the debt within a period not to exceed the expected useful life of the project. Target debt ratios will be annually calculated and included in the review of financial trends.

Tax Supported Debt

4. Net debt as a percentage of assessed value of taxable property shall not exceed 3%. Net debt is defined as any and all debt that is based upon the taxing authority of the County Tax Supported Debt.
5. The ratio of tax-supported debt service expenditures as a percent of total governmental fund expenditures shall not exceed 15.0% with a minimum aggregate ten-year tax-supported principal payout ratio of 50%.
6. In the event that Alamance County anticipates exceeding the policy requirements stated in items 4 and 5 above, Staff may request an exception from the Governing Body setting forth the reason and need for the exception and length of time estimated to retire the debt.

FINANCIAL POLICY GUIDELINES

Alamance County, North Carolina

RESERVE POLICIES

1. Alamance County will maintain a minimum Unassigned Fund Balance, as defined by the Governmental Accounting Standards Board, at the close of each fiscal year equal to 20% of General Fund Expenditures.
2. In the event that funds are available over and beyond the policy amount, those funds may be transferred to capital reserve funds or capital projects funds at the Governing Body's discretion.
3. The Governing Body may, from time-to-time, utilize fund balances that will reduce Unassigned Fund Balance below the 20% minimum for the purposes of a declared fiscal emergency or other such purpose as to protect or enhance the long-term fiscal security of Alamance County. In such circumstances, the Governing Body will adopt a plan to restore the Unassigned Fund Balance to the target level within 36 months. If restoration cannot be accomplished within such time period without severe hardship to Alamance County, then the Governing Body will establish a different but appropriate time period.
4. In other enterprise operating funds, Alamance County shall strive to maintain positive retained earning positions to provide sufficient reserves for emergencies and revenue shortfalls.
5. Alamance County will strive to limit the designation of fund balance only for those purposes for which a legal requirement exists. Examples of such designations may include legally restricted funds, donations, and encumbered funds. In the event staff believes a designation of funds is necessary for the successful completion of a project or purchase, and no other legal basis exists for such designation, approval shall be requested from the Board of Commissioners prior to closing the accounting records for the fiscal year.

FINANCIAL POLICY GUIDELINES

Alamance County, North Carolina

BUDGET DEVELOPMENT POLICIES

1. The Budget Process and Fiscal Procedures will be compliant with the North Carolina Local Government Budget and Fiscal Control Act.
2. One-time or other special revenues will not be used to finance continuing operations but instead will be used for funding special projects.
3. Alamance County will pursue an aggressive policy seeking the collection of current and delinquent property taxes, utility, license, permit and other fees due to Alamance County.
4. Budget amendments will be brought to the Governing Body for consideration as needed.
5. The Governing Body will receive a financial report at least quarterly showing year-to-date revenues and expenditures and comparing each amount to the budget as amended.
6. Alamance County will begin to develop a program to perform five-year operating budget projections that include projections of annual growth plus allowances for operating costs of new capital facilities.

FINANCIAL POLICY GUIDELINES

Alamance County, North Carolina

CASH MANAGEMENT / INVESTMENT POLICIES

1. It is the intent of Alamance County that public funds shall be invested to the extent possible to reduce the need for property tax revenues. Funds shall be invested with the emphasis on safety and liquidity. Yield shall be a secondary consideration. All deposits and investments of County funds shall be in accordance with Chapter 159.
2. The Finance Director will establish a Cash Management Program that maximizes the amount of cash available for investment. The Program shall address at a minimum; Accounts Receivable/Billings, Accounts Payable, Receipts, Disbursements, Deposits, Payroll and Debt Service Payments.
3. Alamance County will use a Central Depository to maximize the availability and mobility of cash for all funds that can be legally and practically combined.
4. Cash Flows will be forecasted and investments will be made to mature when funds are projected to be needed to meet cash flow requirements.
5. Liquidity: No less than 20% of funds available for investment will be maintained in liquid investments at any point in time.
6. Maturity: All investments will mature in no more than thirty-six months (36) months from their purchase date. Exceptions to this guideline may be authorized by the Governing Body.
7. Custody: All investments will be purchased “payment-verses-delivery” and if certificated will be held by the Finance Officer in the name of Alamance County. All non-certificated investments will be held in book-entry form in the name of Alamance County with Alamance County’s third party Custodian (Safekeeping Agent).

FINANCIAL POLICY GUIDELINES

Alamance County, North Carolina

CASH MANAGEMENT / INVESTMENT POLICIES

8. Authorized Investments: Alamance County may deposit County Funds into: Any Governing Body approved Official Depository, if such funds are secured in accordance with Chapter 159 (31). Alamance County may invest County Funds in: the North Carolina Capital Management Trust, US Treasury Securities, US Agency Securities specifically authorized in Chapter 159 and rated no lower than “AAA”, and Commercial Paper meeting the requirements of Chapter 159 plus having a national bond rating.
9. Diversification: No more than \$5 million of Alamance County’s investment funds may be invested in a specific company’s commercial paper and no more than 50% of Alamance County’s investment funds may be invested in any particular investment vehicle with the exception of North Carolina Cash Management Trust. No more than 25% of Alamance County’s investments may be invested in any one US Agency’s Securities.
10. Allocation: Investment income will be allocated to each participating fund or account based on a fair and equitable formula determined by the Finance Director.
11. Reporting: Not less than twice per year the Finance Director will provide an investment report to the Manager and Governing Body including the interest earned in the past six months and on the current investment portfolio including: type of investment, purchase date, price, par amount, maturity date, coupon rate, any special investment features and due diligence taken to assure investments meet guidelines.
12. Alamance County’s annual financial report will be prepared according to the standards necessary to obtain the Certificate of Achievement for Excellence in Financial Reporting from the GFOA and submitted each year for that recognition.
13. Alamance County will develop a Fiscal Procedures Manual to serve as a central reference point and handbook for all spending and purchasing activities that have a fiscal impact within the County and will serve as the County’s authoritative source for fiscal procedure.

Municipal Advisor Disclosure

The enclosed information relates to an existing or potential municipal advisor engagement.

The U.S. Securities and Exchange Commission (the "SEC") has clarified that a broker, dealer or municipal securities dealer engaging in municipal advisory activities outside the scope of underwriting a particular issuance of municipal securities should be subject to municipal advisor registration. Davenport & Company LLC ("Davenport") has registered as a municipal advisor with the SEC. As a registered municipal advisor Davenport may provide advice to a municipal entity or obligated person. An obligated person is an entity other than a municipal entity, such as a not for profit corporation, that has commenced an application or negotiation with an entity to issue municipal securities on its behalf and for which it will provide support. If and when an issuer engages Davenport to provide financial advisory or consultant services with respect to the issuance of municipal securities, Davenport is obligated to evidence such a financial advisory relationship with a written agreement.

When acting as a registered municipal advisor Davenport is a fiduciary required by federal law to act in the best interest of a municipal entity without regard to its own financial or other interests. Davenport is not a fiduciary when it acts as a registered investment advisor, when advising an obligated person, or when acting as an underwriter, though it is required to deal fairly with such persons.

This material was prepared by public finance, or other non-research personnel of Davenport. This material was not produced by a research analyst, although it may refer to a Davenport research analyst or research report. Unless otherwise indicated, these views (if any) are the author's and may differ from those of the Davenport fixed income or research department or others in the firm. Davenport may perform or seek to perform financial advisory services for the issuers of the securities and instruments mentioned herein.

This material has been prepared for information purposes only and is not a solicitation of any offer to buy or sell any security/instrument or to participate in any trading strategy. Any such offer would be made only after a prospective participant had completed its own independent investigation of the securities, instruments or transactions and received all information it required to make its own investment decision, including, where applicable, a review of any offering circular or memorandum describing such security or instrument. That information would contain material information not contained herein and to which prospective participants are referred. This material is based on public information as of the specified date, and may be stale thereafter. We have no obligation to tell you when information herein may change. We make no representation or warranty with respect to the completeness of this material. Davenport has no obligation to continue to publish information on the securities/instruments mentioned herein. Recipients are required to comply with any legal or contractual restrictions on their purchase, holding, sale, exercise of rights or performance of obligations under any securities/instruments transaction.

The securities/instruments discussed in this material may not be suitable for all investors or issuers. Recipients should seek independent financial advice prior to making any investment decision based on this material. This material does not provide individually tailored investment advice or offer tax, regulatory, accounting or legal advice. Prior to entering into any proposed transaction, recipients should determine, in consultation with their own investment, legal, tax, regulatory and accounting advisors, the economic risks and merits, as well as the legal, tax, regulatory and accounting characteristics and consequences, of the transaction. You should consider this material as only a single factor in making an investment decision.

The value of and income from investments and the cost of borrowing may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions or companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance and estimates of future performance are based on assumptions that may not be realized. Actual events may differ from those assumed and changes to any assumptions may have a material impact on any projections or estimates. Other events not taken into account may occur and may significantly affect the projections or estimates. Certain assumptions may have been made for modeling purposes or to simplify the presentation and/or calculation of any projections or estimates, and Davenport does not represent that any such assumptions will reflect actual future events. Accordingly, there can be no assurance that estimated returns or projections will be realized or that actual returns or performance results will not materially differ from those estimated herein. This material may not be sold or redistributed without the prior written consent of Davenport.
